- **David Krieger:** President, Nuclear Age Peace Foundation

*“This year the world will commemorate the 60th anniversary of the bombing of Hiroshima, an event that opened the door to the Nuclear Age and the threats this age poses to humanity and all life. Myths surrounding nuclear weapons and national security are often substituted for reality, so it is time we explore the actual meaning of the Hiroshima experience and its impact on us all.”*

*David Krieger*

This event is presented by SBCC's International Studies Association (ISA), UCSB's Global & International Studies Department, the Nuclear Age Peace Foundation, SBCC's Phi Theta Kappa and Santa Barbara Coalition for Global Dialogue.
